

## **BCPSEA EA Training – Understanding Common Medical Conditions**

This free 4-hour course is intended to provide professional development opportunities for EAs working to support and become more aware of learners with certain medical conditions. The course provides participants with guided learning activities, knowledge checks, opportunities for reflection, and assessments.

This course is accessible via BCPSEA's website (<https://bcpsea.bc.ca/>). It can be found under Learn & Connect, then Oncore HR Learning & Support. Scroll down to Courses for Support Staff to find the one titled Understanding Common Medical Conditions.

To access the course, staff need to create an account (using their school district email address) at: <https://bcpsea.bc.ca/my-account-login/>. Once an account is created, staff will be able to access the course at: <https://bcpsea.bc.ca/all-courses/>. If staff experience difficulties accessing the course, they may seek assistance by emailing their concerns (with a contact telephone number) to: [officeadmin@bcpsea.bc.ca](mailto:officeadmin@bcpsea.bc.ca).

### Course Content:
